## TWO PRECINCT LINES CHANGED

Council Moves Division Between  
Fifth and Sixth From Harrison  
to Jackson Streets

### FACTORY PRECINCT TOO BIG

Law Provides Not More Than 500  
Votes May be Cast in Precinct  
—Too Late to Change Wards

Plans were adopted last night by the city councilmen for the arranging of the city precincts to conform with the law regarding the number of voters that can be accommodated in each precinct at the primary election, which will be held on May 3.

Although the meeting of the city council last night was for the purpose of receiving bids on two street improvements, nothing definite could be done, but a plan was generally adopted and will be introduced in a resolution at a special meeting next Tuesday night, at which time final action will be taken.

The change is brought about due to the heavy vote that will be cast on account of the women who will vote for the first time in a primary election, as well as the first city election for the combined voters.

In a city election the voting precincts in Rushville are reduced to six, while in a general election there are ten precincts in Rushville township. At the last election in November there was no need for changing the precinct boundary lines, but since the number has been reduced, each precinct will have a heavy vote.

The need of immediate action was called to the attention of city officials by state officials, who informed the city clerk that all precinct changes had to be made 30 days prior to the primary election, and that the precinct boundary lines had to be published in two newspapers in one issue before 30 days of the approaching election.

The vote which was cast four years ago at the city election was obtained, and in one precinct, number 5, which is known as the factory district, it was found the vote was unusually heavy, and would be doubled with women voting. Councilmen saw that it would be necessary to lessen the number of voters in this precinct.

Attention was called to the fact that it was too late to change the

## CHARGES DUE TO RAID MAY NOT BE PRESSED

Mayor Scudder Instructs Police  
Hereafter to Make all Persons  
Thus Arrested Give Bond

### OTHER ALTERNATIVE IS JAIL

No further developments were reported today in the arrest of Lillie Edwards of Arlington and Clarence Carney of this city, who were found in a raid on an alleged resort in the Grand Hotel, Wednesday night by police officers, and some doubt was expressed as to whether charges would be pressed.

Chief Wilfong and Prosecutor Stevens were reluctant for some reason in giving the correct names of the people arrested, when consulted yesterday. Mayor Scudder stated that the officers did not have any business in shielding victims of raids, and told Chief Wilfong to take all prisoners so caught to jail in the future, or make each provide a cash bond.

It was reported yesterday that the girl arrested was Grace Edwards, and the man's Christian name was intentionally withheld by the officers.

Mrs. Pearl Ayers, who has charge of the Grand Hotel stated today that the officers had the wrong impression when they entered the room in which a death had just occurred, and she stated that the people in the room were relatives or friends of the deceased. She said that while her father, James Carr, was dying, the police made several attempts to bolt into the room, and demanded keys for other doors in the building.

## URNS BUGGY UPSIDE DOWN

Wind and Hail do Severe Damage in  
Moscow and Vicinity

About 2:30 o'clock yesterday afternoon a severe wind, hail, and rain storm passed over the southwestern part of the county and some damage was reported this morning. At Moscow several windows were completely blown out of the high school building and a buggy which was standing in front of the school building was turned upside down. A heavy rain and hail storm followed in the path of the wind. No damage was reported in and around this city.

## CAR PLUNGES DOWN STEEP EMBANKMENT

Steering Wheel Comes Off But John  
Herbert and Companion Escape  
Without Injury

### MACHINE DID NOT UPSET

John (Josie) Herbert, 530 North Sexton street, a farmer, narrowly escaped serious injury and another occupant of the car was also unhurt, when Herbert's machine this morning plunged down a steep embankment just north of the covered bridge over Flatrock at the southern edge of Rushville.

The steering wheel came off and Herbert lost control of the car. It headed for the west side of the road and went straight down the embankment, stopping at the bottom right-side up without turning over once. The riverbed at the bottom of the embankment is at least ten feet below the surface of the road.

Persons who saw the car marveled at the fact that it did not turn over. If the machine had upset in its plunge down the embankment, it probably would have landed in the river and the occupants of the car would have been seriously, if not fatally, hurt. Herbert was not even thrown out of the seat but the other man in the car, whose name was not learned, went out through the side curtains.

## ASSESSORS BESEIGED BY MANY TAXPAYERS

Belief Prevails That no Property  
Should be Above Average, Which  
is Contrary to Facts

### SOME IS BELOW AVERAGE

Since the publication, last Tuesday, of the average assessments of items of personal property assessed thus far, township assessors and their deputies have been besieged by taxpayers who had already been assessed and the value of whose property was fixed above the average.

The county assessor Earl F. Priest, has had complaints from many assessors who say that taxpayers have been endeavoring to have the valuations of their personal property fixed at a lower figure than last year because the averages indicate a decrease of about one-fourth, as compared with the averages for the whole taxation period last year.

Mr. Priest calls attention to the fact that not every taxpayer can be assessed at the average values because there are many whose property is below the average and there must of necessity be some above the average in order for the average to be maintained. Many people believe that their property is average when, as a matter of fact, the county assessor says, this is a question for the assessor to decide because he is better qualified to judge by reason of having assessed other property owners.

### WILSON SUFFERS ATTACK

Washington Mar. 25—Dr. Gary T. Grayson was hurriedly called to Former President Wilson's home today. It was said at Grayson's office that Wilson had an attack of indigestion which was responding to treatment.

## NEW SCHOOL AGE IS ESTABLISHED

Law Enacted This Year Provides  
Children Remain in School Until  
They Are 16 Years Old

### EFFECTIVE NEXT SEPTEMBER

Will Mean Many More Children in  
School and More Room will be  
Required Due to Increase

Beginning at the opening of the fall school term next September a number of boys and girls who are out of school will be required to resume their studies until they have completed common school or have reached the age of sixteen years. This requirement is provided for in a new law recently enacted by the state legislature raising the age limit that students can give up their studies and go to work.

The new law is heartily approved by the city board of education and from all indications will be rigidly enforced next year. It is pointed out by members of the board that heretofore the industrial laws relative to school children have been neglected to some extent but hereafter with the co-operation of employers this condition will not exist.

The law which now is in effect in Indiana has remained unchanged for several years and requires that children must attend school until they become fourteen years of age and have completed the fifth grade. That is, a child of fourteen must have completed the fifth grade before he can be issued a work permit or a pupil in any grade above the fifth must be fourteen years old before he can be given a certificate that will permit him to work.

The next law which becomes effective next September states that during the school year of 1921 and 1922 a pupil shall be required to be fifteen years of age and to have been graduated from common school before he can be supplied with a work permit. The following year, 1923, the law allows for the raising of the age of sixteen, where it will remain.

As a result of the enactment of the new law the school enrollment in this city and throughout Rush county next season is expected to be larger than ever before. A large number of boys and girls who are under age have left their school work for employment. In many instances children have given up their studies to accept employment at good wages but this condition has changed considerably in the last few months and a number of children who have been working are now loitering.

Vacation permits will be issued to school children holding regular jobs during the summer season. Contrary to the belief of many the only persons exempted are those over eighteen years old or those working for their parents or guardians. All others occupied with regular work are required by law to obtain permits, with the exception of those who go into business as merchants for themselves, such as newsboys, etc.

With the new law effective next September it is an opinion of school officials that between twenty-five and fifty boys and girls who have quit school to go to work will be back in school next year to complete the common school course. The new law will make more school room necessary as it will keep children in school longer, causing the enrollment to be considerably larger.

## WIFE LEFT HIM WHEN SICK

Albert Fortner today filed suit in circuit court for divorce from Cormie Fortner, whom he married Sept. 25, 1919, according to the complaint. She left her husband Dec. 12, of the same year, the plaintiff alleges, while he was sick in bed, and refused to care for him.

The complaint says Mrs. Fortner refused to go to housekeeping and insisted on boarding rather than to cook his meals. The plaintiff says he was able to make \$38 a week, all of which his wife spent, mostly for her own pleasure. She spent most of her time on the streets, he charges, and in picture theaters and hotel lobbies.

## CITY WINS BUT NO BIDS ARE OFFERED

Court Rules That 18 Feet of Water  
Street Not Now Used For Mill  
Race May Be Paved

### CONSTRUES STATE LAW OF 1845

Council Holds Special Meeting to  
Receive Estimates on Improve-  
ment But None is Submitted

After all of the wrangling in the circuit court yesterday over the injunction suit filed by property owners along West Water street against the City of Rushville, in an attempt to restrain the city from receiving bids last night for the pavement contract, the court found against the plaintiffs, but when time came for receiving bids for the improvement, none was submitted.

Early yesterday morning the property owners who opposed the paving of West Water street between Main and Morgan streets, filed the suit against the city, asking that the court restrain them from awarding the contract, which was set for last night at a special meeting.

The injunction case was set for trial in the morning, and did not come up for a hearing until one o'clock in the afternoon. The city filed a demurrer to the complaint, which at first was sustained, but later overruled when the plaintiffs amended the original complaint twice.

The evidence was then heard between three and five o'clock and Judge Sparks decided that the meaning of the act as passed in 1845 by the legislature meant that the portion used as a water course for the mill race between Main and Morgan though the street was vacated by the race, but all unused portions of the original street, still remains a street and this is the portion that is to be paved.

The plans and specifications call for the pavement of the 18 feet left along the north bank of the race, which has been surveyed as the remainder of the original 66 feet, exclusive of that portion occupied by the mill stream.

The plaintiffs, when they say that the meaning of the act was to be construed to mean so much of the street as occupied by the stream, then amended the complaint, stating that the race overlapped on the 18 foot stretch of land, and the evidence for injunction was heard along this line.

At one time the race probably used the 18 foot stretch, which was claimed by witnesses because the mill used water power, and had the race dammed, which caused the water course between Main and Morgan streets to be much wider than it is at the present time. Since the dam has not been used the race has assumed a smaller course and the property owners have filled in the north bank with dirt.

Even though the city won the legal battle, there were no bids for either of the two street improvements. The other improvement was in South Morgan, beginning at Water street, running north of First street, and each contract was to be allowed separately, as each improvement had been petitioned for in separate resolutions. The Morgan street improvement was not remonstrated against.

The council will again advertise for bids, which will not be done until some time after the first meeting night in April, and it will be six weeks before bids can be received.

## NO TRACE OF BALLOONISTS

Washington, Mar. 25—No trace has been found of the navy's free balloon carrying 15 men, which has been missing from Pensacola, Florida Naval Station since Tuesday, reports to the naval department showed today.

Although aircraft and naval vessels were making a search in the Gulf of Mexico, it is feared the men have been lost. Carrier pigeons brought the last report from the balloonists, which stated that they were then drifting over the Gulf 25 miles from Panama City, Florida. They apparently found no altitude where the wind would be blowing from the south.

## MRS. NAOMI SUTTON DIES

Widow of Late S. H. Sutton Expires  
at Home North of Mays

Mrs. Naomi Ann Sutton, age 80 years, of Rush county living north of Mays, died this morning about three o'clock, death being caused from double pneumonia and heart trouble. Mrs. Sutton was the widow of the late Samuel H. Sutton, and was well known in the Mays community. She made her home with her son, Luther Sutton, who survives, and one daughter, Mrs. Lee Hall, also of Mays. The funeral services will be held Sunday afternoon at two o'clock at the Center church, and burial will be made in the cemetery nearby.

## SHOE COBBLER IS SET FREE BY JUDGE

Al Marinee, Evidence Develops At  
Hearing, Had Bought Tools and  
Paid Part of Sum Due

### PROMISES TO MAKE IT GOOD

Al Marinee, shoe cobbler, who was arrested yesterday in Indianapolis and returned here on a charge of petit larceny, was arraigned this morning before Judge Sparks, and after the court heard the evidence in the case, the defendant was discharged.

Marinee was indicted by the grand jury which was in session yesterday. It was charged that he had taken some tools from Frank Comella, a local shoe shop proprietor, when he was employed in this city, but the evidence disclosed that Marinee had purchased the tools, but had failed to make the total payment. The case was found to be on an account instead of larceny, and the defendant promised to make good the \$14 which was due Comella on the tools.

No other indictment was returned by the grand jury which was in session yesterday. Marinee was arrested on an affidavit which was later changed to the grand jury indictment.

## FLAGS AT HALF MAST IN HONOR OF CARDINAL

Messages of Condolences Over Death  
of Churchman are Received From  
all Parts of World

### BODY WILL LIE IN STATE

Baltimore, Md., Mar. 25—Flags were lowered to half mast here today in honor of James Cardinal Gibbons. The lowering of the flags was an official mark of respect for the churchman who died here yesterday at the age of 86 years.

Unofficial men and women joined in the testimonies to the aged prelate whose activities were not confined to this church or city. Large crowds passed slowly before the residence of the cardinal, men with lifted hats. The sorrowful attitudes were not confined to Baltimore where the people were accustomed to the cardinal, but messages of condolence came from all sections of the country and the world. President Harding and other high officials expressed their appreciation of the cardinal.

Highest honors will be paid to the cardinal in the ceremonies which will end next Thursday when the body will be placed in a crypt under the altar of the cathedral here. Until Thursday the body will lie in state. The guard of honor will be lay friends and officials of the church. Beginning Monday, masses will be said each day until Wednesday when pontifical high mass will be celebrated for the laity.

## GENERAL STRIKE ORDER IN BERLIN

Communists Executives Call on Workers  
to Leave Employment Saturday  
and Arm Themselves

### URGE SEIZURE OF FACTORIES

Fighting at Eisleben Continues, 20  
Deaths Being Reported—Toll of  
Lives Raised to 40

(By United Press)

Berlin, Mar. 25—A general strike was ordered here today by unanimous action by communist executives. It will take effect Saturday. Workers are urged to arm themselves and to fight to the end.

Seizure of factories were urged. The communist uprising in central Germany has somewhat subsided but the leaders are preparing for a renewal of fighting. Four thousand troops were rushed into Saxony. They will be quartered at Eisleben, where thousands of communists are flocking for a great demonstration tonight.

Halle, Germany, Mar. 25—Fighting at Eisleben between communists and police continued today. Twenty deaths were reported, raising the total from mid-Germany to 40.

While the police appeared to be gaining an upperhand, indications were the communists were being reinforced. Desperate fighting ranged about Eisleben last night.

Rockets were arched over the town lighting the district. While the police fought from behind their barracks, the communists entrenched on house tops and fought from the roofs of buildings. They were armed with machine guns, hand grenades and rifles. The police used their steel shrapnels.

Indications were today that the communists would assume control of all railway lines and bridgeheads. Troops were prepared to guard the most important structures.

Communists declared they wished to make Eisleben a radical center and were willing to isolate it from the rest of the world.

Halle was quiet today and was under strict police guard. The city was without water when the employees of the city pumping plant joined the strike. Large stocks of artillery and ammunition were brought to Halle by incoming troops.

## ONLY 8 CANDIDATES QUALIFY FOR PRIMARY

Others Who Have Announced Intentions  
of Seeking Nominations  
Urged to File at Once

### APRIL 2ND IS THE LAST DAY

Earl E. Osborn, city clerk, announced this morning that only eight candidates for the primary election had filed their intentions with him, and he wished to call attention to the fact that the time is getting short and all candidates should file at once, rather than overlook the final date for filing, which is April 2, at four o'clock.

S. G. Rucker, 310 West Tenth street, has filed his intentions of seeking the office of city clerk, subject to the republican primary election, and he makes the third candidate who is out for the office, the other two being Earl Osborn, present incumbent, and Gibson Ross. Mr. Rucker is employed at the F. B. Johnson and Company drug store.

Besides the three candidates mentioned above, all of whom have filed, John S. Davis, and John Q. Thomas have filed for the office of mayor, and two for councilmen, Chase Mauzy and Frank Abercrombie. George Helm, who is seeking re-election for city treasurer, also has filed and so far has not had any opposition.

All eight of the candidates that have filed are republicans. On account of the absent voter's ballots this year, the copy for the printing of the ballots will be given the printers as soon as the final period for filing has expired.

### SUCH IS LIFE

"Eighteen years ago I had three ribs broken, fourteen years ago my right leg; eleven years ago I nearly went over with typhoid fever and since then have had awful stomach and liver trouble. Was filled with gas most all the time. I would have colic attacks so bad as to become unconscious. No medicine helped me and doctors advised an operation. One day talking with a stranger he recommended May's Wonderful Remedy, which helped me at once." city wards, and in order to take of the vote, and keep the minimum down to 500 voters in each precinct, a shift will be made in the 5th and 6th precincts only.

The law states that the councilmen can enlarge the number of voting precincts in any ward, but the precincts must be confined to the wards, unless the wards have been legally changed.

The plan adopted last night will take off the surplus number of voters in precinct 5, and put them in number 6. In order to do this the dividing line of the 5th precinct was pushed over from the middle of Harrison street to the middle of Jackson street.

Under the new arrangement the 5th precinct will cover all territory north of Fourth street, and west of Jackson, including those people who

reside on the west side of Jackson street. The 6th precinct, which will vote in the garage building at the residence of the late Arthur Irvin, will include all people residing east of Jackson street, and north of Fourth, over to the middle of Main street.

It was expected that by making this change, the large factory precinct would be reduced to conform with the law, making it less than 500 voters, and in all probability will make each precinct in this ward about equal.

The other four precinct will not be changed because the vote four years ago does not indicate that even with the women voting, the total would run over 500.

GAS IN OVEN EXPLODES

Miss Kate McCoy was slightly burned on the side of the face and neck at the Masonic Temple Wednesday evening while preparing the Knights Templar banquet. Gas in the oven was ignited when she lighted the gas on top of the stove, and the flames leaped out unexpectedly. A mop fell over and turned on the gas in the oven.

MOTHER EXPIRES IN ITALY

Frank Comella Receives Word of Death at Termini, Imeresi

Frank Comella, proprietor of a local shoe repair shop, has received word of the death of his aged mother, Mary Comella, who died about the middle of February at her home in Termini, Imeresi, Italy. Her death was due to complications which followed an injury that she received about ten years ago, when the village was damaged by an earthquake. The Rushville man left Italy 18 years ago, and had never seen his mother since that time. Two other sons are in the United States, James and Joe, who reside in Bellefontaine, O., and one son, Jake, resided at home with his mother.

Unpunished Crime

The United States of late has been  
adding to her unwelcome eminence  
in crime. There have been more mur-  
ders this year than ever before and  
more lynchings, robberies and other  
crimes of violence. Worse still, a  
larger proportion of these crimes  
seem to go unpunished.

Two explanations are given. One  
is the inefficiency of the police, who

in a surprisingly large number of  
cases never arrive at a solution of  
the crimes, or who even appear to  
ignore them as of little importance.

As a result, there are few arrests  
for serious crime. When accused  
men are haled before the bar of  
justice, there arises the second ob-  
stacle—difficulty to convict. The law  
in this country often seems designed  
rather to protect the offender from  
punishment than to protect society  
from the offender. A criminal suit  
is a lawyer's game, and jurors are  
often too weakly human, forgetting  
that wrongs which they might for-  
give personally without blame they  
have no right to disregard as repre-  
sentatives of society.

Here are some illuminating figures:  
England, with fewer murders, has a  
surprisingly higher average of ade-  
quate dealing with the murderers. In  
the last recorded year, London had  
19 deliberate murders to New  
York's 221. In 13 of these cases the  
problem was settled conclusively  
and satisfactorily—eight of the  
murderers were convicted, and five  
committed suicide. Of the 11 sus-  
pects tried only three were acquit-  
ted. Perhaps the adequate handling  
of those cases and the general knowl-  
edge on the part of the criminal  
and weak that England always  
treats crime so, had a good deal to  
do with keeping down the crime to-  
tal.

It is useless, however, to lay all  
the blame on the American policy  
and the American courts. That is  
merely "passing the buck". Public  
officials always represent the public.  
If they are lax it is because the  
public is lax. The spirit which, on  
the police force and in the court-  
room regards crime too lightly is  
the same spirit which is diffused  
through the general mass of citizen-  
ship. What is needed is a new popu-  
lar respect for law and honesty, a  
new horror of crime and a new zeal  
for its prevention and punishment.

Distributing Aliens

Mr. Husband, the new commis-  
sioner general of immigration, has  
some well defined plans for solving  
the immigration problem, so far as it  
relates to the distribution of aliens

after they have been admitted to  
this country. He hopes to secure the  
cooperation of the departments of  
the interior, agriculture, and labor in  
an effort to divert the stream of im-  
migrants from the city to the farm.  
Mr. Husband asserts that the ma-  
jority of our immigrants are peasant  
farmers, whose ambition in life is to  
own a piece of land. Too many of  
them have heretofore settled in the  
cities, largely for the reason that  
those before them did the same.  
The commissioner declares that  
there is land enough in this country  
for millions of small farms. In the  
west and south thousands of acres  
are being reclaimed by irrigation  
and drainage, while in the east there  
are many abandoned farms that  
should be utilized.

"Our plan," says Mr. Husband,  
"is not to replace American farmers  
with foreigners, but to create new  
farms and make new farmers, there-  
by increasing the resources of the  
nation. Our immigration problem is  
largely a problem of distribution of  
the immigrants. The farm, with the  
advantages we can offer, will be the  
best sort of an Americanization  
school".

The decline and fall of the non-  
partisan league is another refresh-  
ing evidence of the return to nor-  
mality that the country is experienc-  
ing. The popular demonstration in  
Kansas against missionaries of the  
league was a bit violent, but it indi-  
cated with satisfying clearness the  
determination of the people in that  
section of the country to have done  
with forces antagonistic to our  
form of government.

The length of women's skirts is  
now governed by the distance from  
the bottom to the ground. But if  
they keep going up, the waist line,  
rather than the bottom will be the  
beginning point.

Sometimes the woman who is dis-  
appointed in love consoles herself  
with the thought that he is a tight-  
wad, anyway.

Yes, we are always ready to say  
something good about the man who  
is dead. He can't hit us for a touch.

Keeping everlastingly at it brings  
success, they say—and sometimes a  
punch on the jaw.

## SECOND M. E. CHURCH IN RECORD ADVANCEMENT

The reports from the Second M. E. church, at the fourth quarterly conference held here last Saturday, when Dist. Supt. E. A. White presided, showed the greatest advancement in many years. All claims were met and the benevolences increased over many years. At the conference the following officers were elected:

Trustees—Steven Herdspath, H. L. Bundrant and J. D. Tracy; recording steward, George Adams; district steward, Mrs. Rebecca Leonard; financial secretary, Allen Daniels; Sunday school superintendent; Nathan P. Fletcher; benevolence treasurer, Mrs. J. E. Bean; church treasurer, Nathan P. Fletcher; president of Sunday School Missionary society, Melita Bundrant.

The auxiliaries of the church on Sunday greatly aided in raising \$56 Centenary money. Supt. White preached at 11 a. m. and administered the communion. Two persons joined the church, one a full member and the other a preparatory member.

# Exide BATTERIES

## Why We Sell Exide Batteries

Sound business reasons, every one of them.

1. The first commercially successful starting and lighting battery was built by The Electric Storage Battery Company.
2. The Electric Storage Battery Company is the oldest and largest manufacturer of storage batteries in the world.
3. Exide Service means a definite battery service—repairs, overhauling and attention by a group of battery experts.
4. We can sell an Exide Battery, secure in the belief that you will get all the battery value possible and more than you ordinarily would get.

No matter what make of battery you have now in your car, if it needs attention, we shall be glad to give it expert, unprejudiced attention so that it will last as long as possible until you are ready to replace it with an Exide, the long-life battery.

The B. Z. D. club will be entertained tomorrow afternoon at two o'clock at the home of Miss Myrtle Fulton in this city.

About twenty couples attended the dance given at the K. of P. hall last evening in West Second street. The McGinnis orchestra furnished the music for the dancers.

The Ladies Aid Society of the Christian Union church of Homer was entertained yesterday afternoon at the home of Mrs. Oscar J. Miller. The regular program and business session was held. A social hour was enjoyed at the close of the meeting during which delicious refreshments were served.

Mrs. Albert Dickey delightfully entertained the members of the Priscilla Art Club yesterday at her home in Fairview. A bountiful pitch-in dinner was served at noon. Eight members were present. The afternoon was enjoyed with a social time during which a story was read by Mrs. Curtis Scholl, and the hours spent over needlework.

The regular meeting of the Yomo club was held yesterday at the home of Mrs. Russell Baringer in North Perkins street. This being the week of prayer, the club observed the week with reading of Matthew, the 27th chapter, and prayer. The remainder of the afternoon was spent

## WHEN MEALS DON'T FIT

"Pape's Diapiesin" is the quickest indigestion and Stomach Relief

When meals hit back and your stomach is sour, acid, gassy, or you feel full and bloated. When you have heavy lumps of pain or headache from indigestion. Here is instant relief!

Just as soon as you eat a tablet or two of Pape's Diapiesin all the dyspepsia, indigestion and stomach distress caused by acidity ends. These pleasant, harmless tablets of Pape's Diapiesin never fail to neutralize the harmful stomach acids and make you feel fine at once. and they cost so little at drug stores.

in needlework. Late in the afternoon the hostess with her assistant, Mrs. Howard Ewbank, served dainty refreshments.

Miss Clara Bell Baisler of Glenwood and Lee Armstrong of Connersville were married at eleven o'clock this morning by the Rev. L. E. Brown at the Main Street Christian parsonage.

## TO OBSERVE EASTER SUNDAY

Churches of City and County Prepare Special Music

Observance of Easter will be the rule in the churches of Rushville as well as throughout the county Sunday. Easter music has been prepared for practically every congregation.

The day's observance will begin at the St. Paul's M. E. church with a sunrise prayer meeting at 6 a. m., and an Easter festival will be given by the Sunday school in the evening. At the Main Street Christian church the Bible school will give an Easter program at the regular hour. Easter music will be provided at the First Presbyterian church in the evening by a children's chorus and in the morning the pastor, the Rev. W. F. Kunkel, will deliver the annual sermon to Rushville commandry No. 49, Knights Templar.

## AIRMAN FALLS; MAY DIE

Monroe, La., Mar. 25—Lieut. William Coney, making a coast to coast flight from Pablo Beach, Florida to San Diego, California, fell at Crossfield, La., at 7:30 o'clock this morning and sustained a dislocated spine and may die. Coney is being cared for in a farm house owned by a man named Lanier and on whose place his machine fell. Coney was too seriously injured to be removed to a hospital.

## After Thorough Trial a Detroit, Mich., Man Endorses Pe-ru-na

The following letter written from Detroit, Michigan is no snap judgment expressed on the merits of Pe-ru-na, the well-known catarrh remedy, but rather a mature, sober opinion formed after a full year's trial. This is the way Mr. Michael Fako of 906 East Palmer Avenue, in the Michigan Metropolitan, writes: "After using PE-RU-NA for about one year, I have found it a very good medicine for catarrh. It has helped me a great deal and I am very well satisfied. I have gained in weight, eat and sleep well, my bowels are regular and better color in my face."

"PE-RU-NA has done wonders and to me is worth its weight in gold. I shall continue to use PE-RU-NA as long as I live and recommend to my friends who are troubled with catarrh. Nothing can be more convincing than an endorsement of this nature from an actual user. There are many people in every community whose experience, in using Pe-ru-na, has been identical with Mr. Fako's. It is the standby for coughs, colds, catarrh, stomach and bowel disorders and all catarrhal conditions. Put up in both tablet and liquid form. SOLD EVERYWHERE."

## ASKS REPARATION IN SUM OF \$50,000

Washington, Mar. 25—Reparation to the amount of \$50,000 is asked in a complaint filed today with the Interstate Commerce Commission by The National Live Stock Exchange and the Cleveland Provision Company against all Class 1 railroads operating in the eastern territory.

The complaint, which is signed by Everett C. Brown, President of The National Live Stock Exchange, D. C. Mosier, Chairman of the Exchange's Transportation Committee and A. Z. Baker, Traffic Manager of the Cleveland Provision Company alleges that the failure of the defendants to publish a suitable tariff rule providing for the protection of the shipper who orders a standard 36-foot stock car against payment of a higher minimum weight when a longer car is furnished for the convenience of the carrier, has resulted in the payment of excessive charges by the complainants amounting to the sum claimed.

Mr. Brown today issued the following statement in explanation of the complaint:

"This is the second formal complaint filed by our organization—The National Live Stock Exchange—within the past two weeks in a nation-wide drive to get our railroad rates and regulations upon a workable basis, and one that will accord to the live stock producers more equitable rates on their shipments.

"This particular complaint asks that the railroads in Official Classification Territory, generally described as east of the Mississippi and north of the Ohio and Potomac Rivers, be required to publish a rule that will protect the shipper who orders a standard 36-foot stock car for handling cattle, calves, swine, sheep, lambs, goats or kids, against payment of a higher minimum weight when a longer car is furnished for the convenience of the carrier.

"This marks no new departure in tariff rules and the Commission has frequently required the establishment of similar rules; in fact, the complaint quotes the administrative ruling which holds that the railroad should arrange to publish a rule of this character whenever the minimum varies with the length of the car.

"These weight penalties frequently amount to the maximum difference of two thousand pounds per car. Computed on the presented high freight rates, this rapidly runs into a considerable sum.

"In an endeavor to dispose of this question without resorting to litigation we informally appealed to the railroads months ago; but little headway has been noticed. Every day's delay means that our shippers must continue to pay excessive charges; hence, we are asking for reparation on every car on which the excess is being collected."

## AGREEMENT PLANS TO COSTS SIX MILLIONS

Troubles Between Railroads and Employees Will Cost a Fortune, Says Jewell, Employees Agent

### AGAINST NATIONAL AGREEMENT

(By United Press)

Chicago, Ill., Mar. 25.—Machinery to draft individual agreements between railroads and employees will cost the rail workers about six million dollars and will require the services of over 5,000 men, Bert M. Jewell, representing the railroad employees in the American Federation of Labor, made this statement before the U. S. labor board as the opening shot of his plea against the abrogation of the national agreement.

If the national agreements were abrogated, said Jewell, the matter of rules and working conditions would go back to the individual railroads and employees. An enormous expense would be required in formulating and making operative the roads, as the result of the agreement.

Employees would want a committee and each road would be composed of at least one man from each client and if all the 107 roads were represented, the services of 5,158 committeemen would be required, at a total daily expense of \$65,760 or \$5,918,442 for 90 days. This sum does not include additional expenses for stenographers and printing.

### Amusements

#### New Star on Horizon

A new and beautiful film star is to open an engagement at the Mystic Theatre today. She is Louise Lovely, and the picture is a William Fox production, "The Little Grey Mouse," from the pen of Barbara LeMarr Deely.

The story, as outlined in advance reports, is a strong dramatic tale of the love she has for the man she married, allows him to take the literary credit for a book which has practically been written by her. She permits herself to become a victim of self-sacrifice in everything for this man—who in the end proves himself worthless and a cad. Finally he involves her in a divorce suit, although she is innocent while he is guilty. She accepts her freedom and goes West. Here she attains with pen the fame she deserves, and at last weds a real man.

#### Thomas Meighan at Princess.

It is a happy coincidence that Thomas Meighan, whose love for children is well known out in the

California movie colony, should have been chosen to play the hero in "The Prince Chap," William De Mille's notable screen production of Edward Peple's famous play of the same name. It will be the protoplay attraction at the Princess theatre today.

The heroine Clandia in "The Prince Chap" first appears as a child of four years. This role is charmingly enacted by pretty Peaches Jackson. Clandia at the age of eight is interpreted by May Graeci, a little dusky beauty from Italy. And Clandia, budding into glorious woman hood, finds an attractive counterpart on the screen in Lila Lee.

"I never had a better time," laughed Mr. Meighan recently, "and I never got along with a leading woman so well as I did with my three in "The Prince Chap."

The story is laid in the London artists' colony and is said to strike a deeply human note unusual in photoplays.

### BABY GIRL IS BORN

An eight pound girl was born to the wife of Chester Stevens, formerly Miss Leland McCarty, at the home of Mrs. Stevens' parents, Mr. and Mrs. Ithamer McCarty, north of the city, last Monday night.

## SHE BELIEVES IT SAVED HER LIFE

"And Tanlac Did as Much For My Husband, Too," Declares Terre Haute Woman

"I honestly believe I owe my life to Tanlac and it has done as much for my husband as it has for me," declared Mrs. Benjamin G. Oberly, 1300 So. First St. Terre Haute, Ind.

"I was in an awfully rundown condition for seven years and finally got to where I was almost a nervous wreck. I was going down in health so fast it frightened me. I had no appetite and my stomach was so disordered I had to be mighty careful about the little I did eat. I had a catch in my back and at times it hurt me so I could hardly stand it. My nervousness and misery kept me awake at night and I got so weak I could hardly sweep the floor. I kept taking medicine, but nothing did me any good and I was almost in despair about my condition, for it looked like there was no hope for me.

"Well, Tanlac had relieved by husband of an awful case of indigestion, so I took it myself and my relief has been truly wonderful. I sleep fine, eat heartily, never have a touch of indigestion or a pain of any kind and feel as strong and well as I did fifteen years ago. I simply have no language to fully express my gratitude to Tanlac. It is wonderful."

Tanlac is sold in Rushville by F. B. Johnson Co., in Milroy by Dallas Copper, in Manilla by Geo. J. Inlow, in Arlington by Mrs. L. T. Davis, in Carthage by Otto C. McCarty, and in New Salem by Mrs. Jos. Hankins, R. R. 2.—(Advertisement)

# No Let-Up in Quality

THE one factor which is guarded carefully and never allowed to vary is the quality of products manufactured by the Standard Oil Company (Indiana).

The price may go up or down as the markets of the world may dictate, the quantity of products may vary as the demand for them varies, but the quality which has been established by specifications determined with scientific exactness, remains fixed.

Only an organization financially secure, physically well-equipped and directed by men mentally alert, could maintain the high standard of quality which has been the crowning achievement of the Standard Oil Company (Indiana).

The Standard Oil Company (Indiana) is an organization of 25,000 experienced, capable men and women who are carrying out with enthusiasm the plans and policies formulated by 7 trained directors.

These plans and policies are designed to furnish maximum service to the public, regular profitable employment to the personnel and protection to the more than \$200,000,000 which the stockholders have invested in the business.

In furnishing service to the public no single factor is so important as the insistence upon a uniform high quality of every gallon of product manufactured, an insistence which is felt in the most remote corner of the organization and of the 11 states served by the Company.

Take, as an example, Red Crown gasoline. This is but one of fifteen kinds of gasoline manufactured and sold by this organization. Each is made to meet certain uses for which gasoline is needed. Red Crown is made for use in the modern internal combustion engine and for this purpose it has no superior. Red Crown is the last word in a gasoline for power purposes. That this is generally recognized is attested by the fact that last year 725,000,000 gallons were sold and used by the people of the Middle West.

This tremendous volume is the inevitable result of uniformity, high quality and reasonable price. It is but one phase of the business but it serves to symbolize the earnest, honest endeavor which every individual connected with the organization is putting forth to enable the Standard Oil Company (Indiana) to furnish the public a highly essential service.
